

July 7, 2006.

To Whom It May Concern:

We engaged Steven Eng, of Enviro-Energy Technologies Inc., to install a 1360 watt solar power system with a 4 battery back-up system. We found Steven to be very competent and knowledgeable about solar systems. He educated my wife and me about our system and answered all the questions that we asked. Steven and his team installed the system in one day and at the end of that day, our system was producing electricity to be used or fed back into the grid. We were so impressed with Steven's high standard of workmanship and expertise that we wanted to thank him by writing this letter of commendation. Accordingly, it is a pleasure to provide this letter to Steven as recognition of the work he did for us.

Sincerely,

*Jeff Green + Martha Forge.*
